Alcoa, in cooperation with the Town of Louisville, plans to construct a recreational boating and fishing area located on the Grasse River for public use. The construction is part of a consent decree settlement between Alcoa and NOAA, DOI, NYSDEC and the St. Regis Mohawk Tribe who serve as Trustees for natural resources under the consent decree. A recreational fishing assessment performed jointly by Alcoa and the Trustees determined that Alcoa’s construction of a recreational fishing area as depicted below will compensate the public for lost recreational fishing opportunities due to fish advisories posted in the area.

Location:
- North Shore of Grasse River.
- Village of Louisville, adjacent to the Route 37 Bridge.

Boating:
- Canoe, Kayaks & Small Boats.
- Concrete Boat Ramp.
- Boat channel to river.
- ADA Accessible

Fishing:
- Existing River Edge Fishing.

Access and Parking:
- ADA Accessible asphalt parking.
- 7 auto parking spaces and 5 boat trailer parking spaces.
